Appeal from the United States District Court for the  
District of Columbia in No. 1:11-cv-01254-BJR, Judge  
Barbara Jacobs Rothstein.

**ON MOTION**

---

**O R D E R**

Power Integrations, Inc. moves without opposition to  
stay the briefing schedule pending this court's decision in  
*In re Teles*, No. 2012-1297.

Power Integrations, Inc. asserts that a threshold legal  
issue raised in this appeal is essentially identical to an  
issues raised in *In re Teles*, i.e., whether a patent owner  
may challenge the Patent Trial and Appeal Board's deci-

sion rejecting patent claims by filing a civil action in district court under 35 U.S.C. §§ 145 and 306.

Accordingly,

IT IS ORDERED THAT:

(1) The motion to stay is granted. Power Integrations, Inc. is directed to inform this court within 14 days of the issuance of this court's mandate in *In re Teles*, how it believes this appeal should proceed. The Deputy Director may also respond within that time.

(2) A copy of this order will be forwarded to the merits panel in *In re Teles*, to inform that panel of this case with a related issue.

(3) Any other pending motions are moot.
